*It makes no difference where you come from, what language you speak or how old you are. The experience of music is as ancient as time itself. Music has a habit of binding people together, it's a way of bringing back memories - just like an old souvenir.*

*Last June, some St. Joseph's students travelled through Europe. They tried with great difficulty to master some form of communication with those people foreign to them. Even simple words like please and thank you were hard, because as they travelled from country to country, it meant knowing the basics in several languages.*

*While at the Piazza Novena in Rome, imagine their surprise and delight as they listened - amazed - to hear Roman students sing "With Or Without You" by U2, and other familiar songs - in English. Our students made many friends that evening, most of whom they will never see again. But you can bet your bottom dollar that every time they hear those songs, time will seem to travel backwards, and they will be flooded with memories of their trip abroad - their most precious souvenir.*

*As the years pass, it may become more and more difficult to remember these college days, especially with your attentions on career, kids - spouse? Since our modern engineering does not, as of yet allow for time travel, what better way to go back in time than with music - a culmination of ideas everyone understands.*

*Join us as we celebrate the time of our lives, through music, with this nostalgic . . .*

*"SOUVENIR".*

Ground breaking - spring semester '88

and now the start of our new building

and into the fall semester of '88

## *New Horizons*

The theme of our expanding campus

Spring semester '89

Since the opening in Patchogue in 1979, the college has experienced phenomenal growth. This enrollment surge has led to severe space problems, with NEW HORIZONS we will help solve in two ways: by building a modern, new free standing library, by renovating the existing building to accommodate additional classrooms, faculty and student activities area.

A free standing library is the first stage of St. Joseph's long range plan to create an outstanding collegiate environment

We hope for completion for the fall semester of 1989.

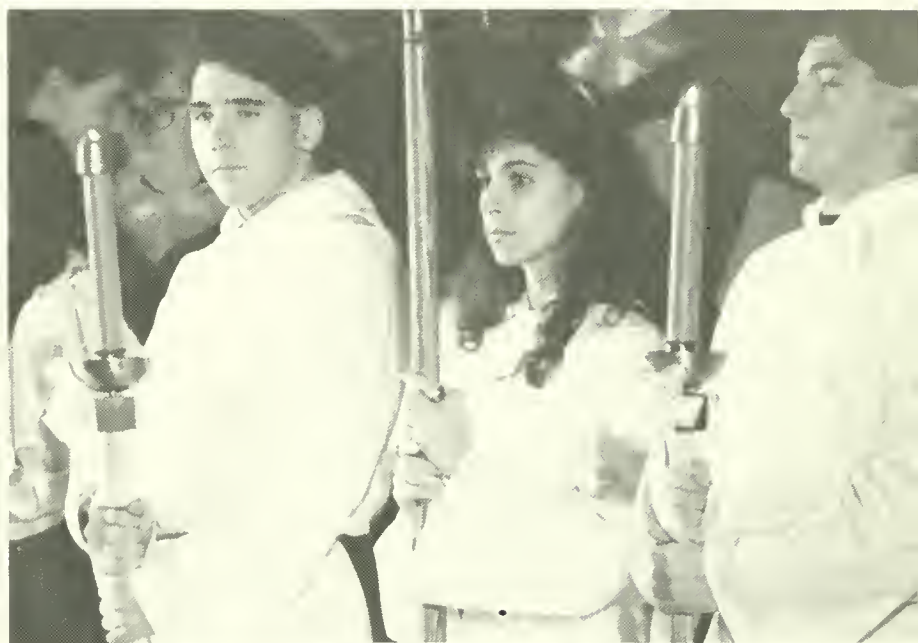

A walk into the future!

# 1960's . . .

## 1960's

In the early 60's there was among the students, those forerunners of where the action is, the great social and political involvement as the students strove to bring about racial equality, peace through anti-war demonstrations and the right to life protest . . . . .

The music, styles of hair, clothing, dancing, singing, theatre, painting and sculpture of this decade show a violent rebellion against the static "Clear and Distinct" Cartesian forms. (There must be more to life than what suburbia was so busily striving to possess.) The world had based its dreams of happiness on science and reason, put it all into neat boxes and labeled it, but it had forgotten the most important element, human love. So flower-people became the cry!

In his encyclical "Christianity and Social Progress", Pope John XXIII, pointed out the development of Christian social doctrine in modern times and its attempt to meet the challenge of our changing times. "The world is in dynamic change and the Church must make the Christ present in this society". Pope John met the challenge and projected the Church dramatically into the society which had rejected it in the Reformation and the French Revolution; he projected it into the societies of the newly forming worlds which many times, know not the Christ; he projected it so that we can apply it in the American society in which we live. Pope John the XXIII, was born November 25, 1881, on October 28, 1958 he was elevated to the Papal Throne, and on June 3, 1963 he died. (L.I. Catholic 6/6/63) November 22, 1963 Dallas, Texas (AP) President John F. Kennedy, 35th President of the United States, was shot . . . . . by a hidden assassin armed with a high powered rifle . . . . . the mantle of the presidency fell to Vice President Lyndon B. Johnson. (Newsday 10/22/63)

In the late 60's the students found the Jesus Movement in some quarter's. He became their hero, rebel for peace their superstar. Johnny Cash, Pat Boone, Judy Collins, Eric Clapton were singing and playing about "My Sweet Lord" and His "Amazing Grace". December 24, 1968, The Apollo Eight space craft went into orbit around the moon early today, assuring immortality to astronaut's Frank Borman, James A. Lovell Jr. and William A. Anders.

1960's

In August 1963, some 200,000 persons marched on Washington to demonstrate for civil rights. The following will be remembered.

"I HAVE A DREAM THAT ONE DAY THIS NATION WILL RISE UP, LIVE OUT THE TRUE MEANING OF IT'S CREED: "WE HOLD THESE TRUTH'S TO BE SELF-EVIDENT, THAT ALL MEN, ARE CREATED EQUAL". I HAVE A DREAM THAT ONE DAY EVEN THE STATE OF MISSISSIPPI, A STATE SWELTERING WITH THE HEAT OF INJUSTICE . . . . . WILL BE TRANSFORMED INTO AN OASIS OF FREEDOM AND JUSTICE. I HAVE A DREAM THAT MY FOUR CHILDREN WILL ONE DAY LIVE IN A NATION WHERE THEY WILL NOT BE JUDGED BY THE COLOR OF THEIR SKIN, BUT BY THE CONTENT OF THEIR CHARACTER."

Martin Luther King Jr.

A Southeast Asian country formed in 1954 once a French colony of Indochina caused Americans through out the 1960's, to be divided over a war in which victory seemed unattainable. 16,000 military "Adviser's" were sent to South Vietnam in 1962. By 1966 there was 375,000 United States armed forces in Vietnam.

June 8, 1969, President Richard Nixon announced the withdrawal of 25,000 U.S. Troops out of Vietnam, and pledged to pull out 235,000 more by mid-1971.

NBC-TV'S David Brinkley and Chet Huntley were the decade's top team of newscasters. Their weekly night show usually began in New York, where Huntley opened the program, while in Washington Brinkley came in via monitor.

SNOOPY was the hero of Charles Schults's comic strip "Peanuts".

APOLLO 11, blasted off for the moon at 9:32 E.D.T. on July 16, 1969, the mission was exactly 102 hours and 46 minutes old, when astronaut Neil Armstrong the command pilot aboard the luna module radioed earth, "The Eagle has Landed".

Once upon a time, for a thousand days, Jack and Jacqueline Kennedy lived in the White House and presided over their domain with a magical blend of elegance and vibrance. Never had a first family been so good-looking or seemed so young, so intelligent, so talented, so brimming with vitality. Nor had affairs of state, both social and political, been conducted with such style.

"Let the word go forth from this time and place . . . . that the torch has been passed to a new generation of Americans. . . . . So let us begin a new . . . . together let us explore the stars, conquer the deserts, eradicate disease, tap the ocean depths, and encourage the arts and commerce . . . . .

. . . The Energy, the Faith, the Devotion, which we bring to this endeavor will light our country and all who serve it, "And the glow from that fire can truly light the World."

John F. Kennedy, Jan. 20, 1961

No one proclaimed the message of Love and Happy Living to American youth more beguilingly than four rock singers from England, who called themselves "THE BEATLES". After the release of their first big hit, "She Loves You", in 1963, Beatlemania spread all over the world.

## 1970's

The 70's will be noted by the rise in anxieties and stresses in daily living. Before a world torn by violence and great oppressive injustices, by hunger and crime some students are beginning to ask themselves just what does it mean to be a Christian. This was a time for political and cultural revolution that some survivors now find so alien that it is hard to believe that it happened a mere two decades ago. 1970 was a youthful spirit of time.

When a visitor mounts Blanket Hill at Kent State University and looks out across the campus-at the woods and pathways, the functional institutional architecture, mid western students in jeans on their way to class, it is difficult to believe that this was once the scene of sharp, sudden violence of shots heard around the world. (May 4, 1970)

April 9, 1972 NEWDAY "U.S. WEIGHS MORE AID TO SAIGON, BUT NO GI'S" "L.I. Job Prospects Stay Bleak Despite Signs Of Business Life"

August 9, 1974 - Richard Milhous Nixon, the 37th President of the United States, announced that he had given up his long and arduous fight to remain in office and would resign.

Gerald Rudolph Ford, whom Mr. Nixon nominated for Vice President last October 12th will be sworn in as the 38th President to serve out the 895 days remaining in Mr. Nixon's second term.

July 4, 1976 the sky dances with silver and gold to honor the 200th anniversary of the nation. Some of the best spots for watching were lower Manhattan, from South Street Seaport on the East Side, Brooklyn Height's, Remsen to Orange Street and the Rooftop of St. Joseph's College Brooklyn Campus.

Paul McCartney's recently ended tour with WINGS was a great success, and his recent single and album are both No. 1 in the sales charts.

May 24. The Brooklyn Bridge, on its 100th birthday, received one of America's greatest pyrotechnic displays. And rightly so. Tallest sight on New York's skyline in 1883, the bridge marked a city in motion and was hailed as the greatest engineering work of the age. Its granite towers criticized then as too romantic, bridge past and present. As Harper's Weekly of May 24, 1883, remarked, it is "our most durable monument."

July 13. "Good morning children of the 80's," proclaimed singer Joan Baez to a crowd of 90,000 today in Philadelphia for the Live Aid concert for African famine relief. "This is your Woodstock, and it's long overdue." The event coincided with another huge gathering outside London, with a worldwide TV simulcast of both concerts. Performers included Paul McCartney, Bob Dylan, Tina Turner, Mick Jagger, Phil Collins, U2, Madonna, Sting, and many others. The massive benefit, organized by Irish singer Bob Geldof, represented the culmination of previous efforts to raise money through recordings. Live Aid is expected to raise more than \$50 million for famine relief.

Space shuttle Challenger at looking good...

Jan. 31. The loss of the space shuttle Challenger and its seven astronauts was mourned in a solemn memorial ceremony at the Johnson Space Center in Houston today, as President Reagan spoke of "our seven Challenger heroes" and pledged honor them with a new national commitment to space exploration. The Challenger exploded in a ball of fire shortly after it left the launch pad at Cape Canaveral on Jan. 28, in the worst accident in the history of the U.S. space program. The disaster was witnessed by thousands of spectators in Florida and millions of television viewers. Two people killed in the accident were the commander, Francis R. Scobee, the

## Miss Liberty feted on 100th birthday

July 4. Midnight. Hundreds of ships, from dinghies to destroyers, are bobbing in New York harbor. It is quiet now and dark, but the scent of smoke lingers. Only a few hours ago, a spectacular 28-minute fireworks display lit the sky about the face and torch of the Statue of Liberty, topping off a fabulous birthday for the Lady and America.

In the morning, President Reagan sailed the USS Iowa, surveying 20 warships from the U.S. and 21 from other nations. Tall ships sauntered alongside stodgier craft. Overhead, jet fighters from France performed exuberant aerobatics.

At lunchtime, Reagan met with French President Francois Mitterrand, ostensibly to discuss arms control. But how could an American president refuse to meet a French leader today? If France had not kindly delivered the bronze statue 100 years ago, there would be no excuse for the present festivities.

After months of refurbishing, Liberty reopened to visitors. Her first guest was, ironically or rightfully, no American but an English tourist. The line for the statue was incredibly long, and the heat (it was in the 90's) unbearable, but a visit paid on the 5th of July was an unspeakable, mortifying idea.

Miss Liberty, facelift finished, is showered in fireworks on her 100th birthday.

## 6.2 billion in 2000

Dec. 21. According to statistics just released by the Census Bureau, the world population is reproducing itself more slowly now than it was in the early 1960's. But not slowly enough. By the year 2000, Mexico City will be bigger than Tokyo, with 27.9 million people. About 170 cities in the world will have over two million residents. Three-fourths of the population will live in developing countries, and many of those people will be elderly. The number of people in the world age 64 and over will increase 46 percent. And the total global population will likely increase 27 percent in the next 14 years to reach 6.2 billion. The prob-

## CLARE ROSE PLAYERS TO TAKE PART IN U.S. INTERNATIONAL EXCHANGE PROGRAM

Members of the cast of GODSPELL are working hard at the St. Joseph's Village Clare Rose Playhouse, preparing for the second half of an international exchange program.

In July, performers, technicians and behind-the-scene personnel will travel to Italy under the auspices of "Due Case --- Una Tradizione," the New York State International Partnership Program Instituted by Governor Mario Cuomo. In March, a group of performers from Italy performed "Il Drago Nella Fumana" ("The Dragon in the Fog") at the College.

The late John-Michael Tebelak conceived GODSPELL as his master's thesis at Carnegie-Mellon University in 1971. He read a book called A Feast of Fools by a theologian named Harvey Cox. In the book, Christ and his followers were depicted as harlequins. However, the book was not irreverent, as the figure of Christ as a clown augured hope and joy. John-Michael felt that he had the basis for a gospel musical with a circus ambience, and judging from the success of GODSPELL on Broadway and in regional theatres, he was right.

The show was also a big hit during its TWO runs at the Clare Rose Playhouse. Some cast members enjoyed their roles so much, that they are returning a third time for GODSPELL. Under the direction of John Bonavita of Babylon, a veteran Clare Rose Stage performer, the Clare Rose Players are restructuring and updating the classical 70s musical for its trip overseas. Cast members are bringing their own interpretation, choreography and costume ideas to their roles for a bright, upbeat, soft-rock performance. Everyone plays numerous roles, assuming characters and lines in the parables told by Jesus to illustrate his moral lessons. The atmosphere is wild and wacky, with an underlying touch of realism. Members of the Rose Road Show work well together for a show that is as entertaining as it is morally educating.

DEAR LORD,

I Wonder About Giving  
What does it really mean?  
Do I hand away belongings  
for someone else's dream?  
Do I empty out my pockets  
for someone else's wine.  
Do I check to see if they  
have clothes and if not  
do I give mine?  
Does giving mean not to  
possess a solitary thing?  
What does giving mean  
my Lord?  
I've been wondering  
So many times  
I hear them say  
to give up all you own  
to take stock in The Higher  
Things, to care for flesh  
and bones.  
And I'm not sure what's  
meant by that.  
How far am I to go?  
What does giving mean  
Dear Lord?  
I really need to know.

# FOREVER YOUNG

Giving is a tear shed  
for someone else's pain.  
Giving is a warm dry house  
A shelter from the rain  
Giving is a quiet voice  
to break a lonely silence.  
Giving is an outstretched hand  
to calm you till the fright ends.  
Giving is a smile shining clear  
across the room.  
Giving is a child growing  
in it's mother's womb.  
Giving is a light shining  
brightly on your goal.  
Giving is a band  
— Brothers and Sisters of the soul.  
Giving is a knowing glance  
a soft and kindly word.  
Giving is to take the chance  
to hear what can't be heard.  
Giving is a starlit sky  
to set your thoughts in motion.  
Giving is a ship to sail  
across the salty ocean.  
Giving is a hand to hold  
and arms to hold you tight.  
Giving is sun in the sky  
to make the day shine brighter.  
Giving is a need for love  
and a promise for believing.  
Giving is a gift from God  
that we are all receiving.

# HISTORICAL NOTES ON THE "LA BARACCA" COMPANY

"La Baracca" is created as a theatre collective for children in 1976, having discerned an extremely stimulating dialectical referent in children, and identified the theatre as an optimal instrument of communication due to its completeness and versatility. In 1978 the Company takes on a professional capacity for the first time, and in 1979 moves on to the more complete structure of a cooperative.

Our activity in the production of children's plays is characterized by the originality of the texts proposed and by the prevalent use of the actor technique: not an academic actor, but one who is expressive and real even in surreal situations; who uses language which is simple and current, but not simplified and infantile in the adult sense of "infantility"; who intervenes, transforms, and reassembles the stage space, his body, and everyday objects in such a way that they become dynamic, and not merely descriptive.

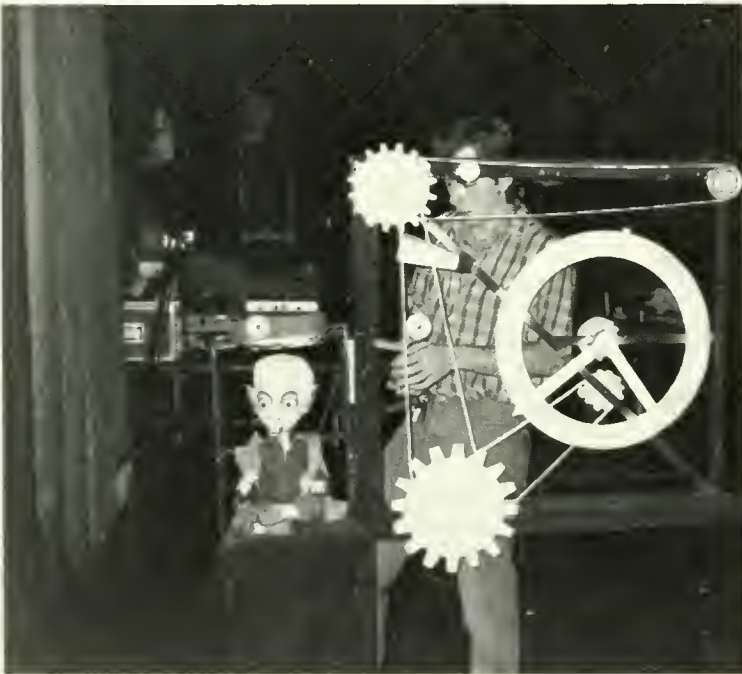

As Puppet Theatre is the "first love" of the Company ("Cappuccetto Rosso", "Perche Burattini!", "Il Gioco delle Tre Carte" are the first productions), La Baracca continues its productive research in this field as well: "The Dragon in the Fog" and "The Christmas Story" are the most recent productions dedicated to this productive genre.

In its more than ten years of activity, the company has taken its shows all over Italy, participating in the most important national exhibitions of Children's Theatre. Abroad, the Company has been invited to Germany, France, Switzerland, Belgium, Spain, where it was the guest of honour at Barcelona's "Tamborinada" in 1982 and 1987, at the "El Carrer Theatre Fair" in Tarrega in 1984, and at the Theatre Review for the Granollers Schools in 1986, Brazil and Mexico.

In Brazil, in the Summer of 1986, it produced the play "The Dragon in the Fog".

This last is based on the novel of the same name by Giuseppe Pederiali, published by Rusconi Editrice, which was the 1985 winner of the national literary Prizes "Piano di Sorrento", "Citta di Penne" and "Selezione Bancarella". The show has been presented - after a tour of Brazil which included cities such as Rio de Janeiro, Brasilia and Sao Paulo - with public and critical success in several prestigious national theatrical displays, and in June 1988 was invited to the Spring Cultural Festival of the State of Hidalgo in Mexico. Its profitable collaboration with regional and local Government - in particular the Bologna City Council and the Emilia-Romagna Region - which began in 1979 on the occasion of the first edition of the exhibition "Un Posto per i Ragazzi" ("A Place for the Children", currently in its tenth edition under the name "Sanleonardo Children's Theatre Centre Festival"), has allowed the Company to fulfil its "dream": the opening of the Children's Theatre Centre in Bologna.

The Centre is a permanent body for the production and promotion of shows for children at the national and international levels, which also allows the Company to carry out a variety of activities related to the world of children, and to embody the intense stimuli which exist therein.

Boating safety, as well as instruction in dinghy, boardsailing, Keelboat sailing, and racing will be offered in the spring. The warm weather will allow members to experience the thrill of sailing first hand, as many members own boats.

Sailing is what the club is all about, and we will do our best to make it safe and enjoyable for all.

# RETURNING STUDENTS

To My Fellow Returning Students,

Although I was apprehensive about being in school with students who were younger than my children, I quickly lost that fear. The students at St. Joseph's are very special and I have enjoyed wonderful relationships with them.

As I graduate, I take two bonuses with my degree: the energy and enthusiasm of the students and a new definition of freedom from my teachers. I look forward to returning some of these benefits to all of you.

## *To The Graduates of 1989*

*As you graduate from St. Joseph's College and receive your Degree, the Degree symbolizes several different things:*

*It symbolizes the culmination of your college career. It is a reminder of all the hard work and effort put into attaining this Degree, as well as the good times and social life, that is also a vital part of any college career.*

*As college draws to a close, it is time for new beginning's in our lives. It is time for us to use the knowledge that we acquired from our Degree, in our daily lives, and pursuing goals that we have set for ourselves.*

*Although there are no longer classroom lectures, you will be learning and acquiring knowledge, in your new job, and perhaps this is the greatest accomplishment of all.*

*College experience teaches us - how to acquire knowledge. I feel "School is not a preparation for Life, School is Life".*

*As we reach the twilight of our College Career, and the dawn of another stage of our lives, we continue to strive for what is beyond the quest, for "New Horizons".*

# BASEBALL 1989

March was a difficult month for the St. Joseph's College baseball team. The Golden Eagles dropped their first five games of the season, losing three games with the largest margin of defeat being three runs. Although the Golden Eagles played solid defense, the offense could only produce eleven runs in the first five games.

When March rolled into April, it seemed to bring with it the Golden Eagles offense. Saturday, April 1st, the Golden Eagles travelled to Nyack College for a double header, hoping to end a five game slide. Ken Sweeney started game one, going five solid innings before a back injury sidelined him. Sweeney left the game with the bases loaded and a 4-3 lead. Bob Crowley came in for relief and had the misfortune of pitching to a lefty in a park with an unfriendly 250 foot right field fence. Crowley got the batter to hit a flyball to the right, that was a routine out, in a normal park. However, on this day it was a grand slam and the Golden Eagles lost 7-4.

After an emotional between game meeting, the Golden Eagles fell behind again 9-7, in game two, but it was pay back time for the Golden Eagles, when Chris Lamendola stepped up with bases loaded and one out in the top of the seventh, and smacked a grand slam over the right field wall. Bobby Crowley pitched four innings of strong relief to get to win. The Golden Eagles had their first victory of the year.

The winning habit continued as the Golden Eagles traveled to Poughkeepsie, N.Y. and swept a doubleheader from Vassar College 7-5 and 13-10. Charlie Caputo (6 for 9) and Fran Rogalle (5 for 6 and a home run) were the hitting stars. Fran Rogalle and Dave Frabizio were the winning pitchers. ## TO THE CLASS OF 1989 . . .

Dear Graduates of the Class of 1989,

For each of you, who has uniquely arrived at the point of completion of a baccalaureate degree, graduation is a time to celebrate the dreaming and yearning, the reaching and believing, the fulfillment of an important accomplishment in life. On behalf of the Faculty and Administration of St. Joseph's College, I congratulate you. Recalling the line from Whitney Houston's song, "I want one moment in time when I'm more than I thought I could be," our hope is that your experience at St. Joseph's has been a moment in time when you have become more than you expected and desired.

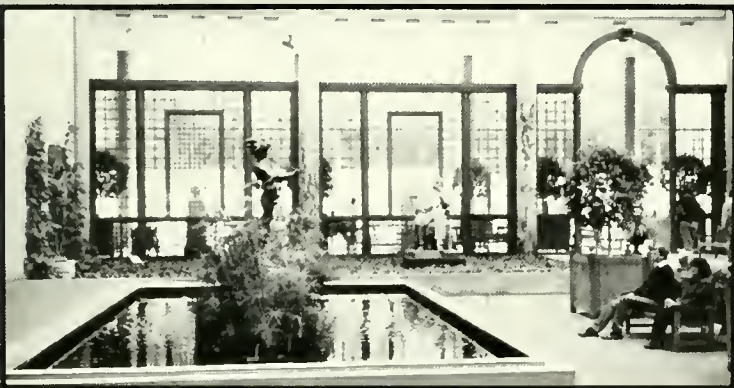

Whether you pursued a purely liberal arts major or a professional one, you have been in a college rooted in a liberal arts tradition, dedicated to developing the whole person, and committed to working toward a better world. We all are aware that our modern society is described as based on high technology, instantaneous information processing, awesome scientific capabilities, global connectedness, efficiency, consumerism, and immediate pleasure and satisfaction. The College goals will be attained if the lessons you have learned reveal themselves in your humanizing these characteristics with a reverence for truth and knowledge; with ideals of justice, peace and freedom; and with esteem for the individual spirit, the educated imagination, and the creation of the inspiring. The measure of the liberal education you have received at St. Joseph's will be in your willingness to assume responsibility for commitments that transcend yourself. For as long as one person in our world suffers unjustly, whether it be from tyranny, oppression, poverty, or discrimination, we all suffer. To deny this is to be less than we have been called to be. Life is meant to be shared, not compared.

We rejoice with you and are proud of you. May your future be successful and happy, and may the power of God working in you grant you more than you can ask or imagine. God bless you.

Sincerely,

*Sister Jean Marie Amore*

## History Of Commencement Robes

What suggests the future more than the sight of graduates in academic robes?

The garb is an ancient one, centuries old and rich in meaning. Academic dress is traced to the robes medieval monks wore for warmth in unheated monasteries. The hoods on today's commencement robes probably originated from the need to keep tonsured heads warm. Since clergy were the literate class in medieval society, they became associated with scholarship. And the first universities actually grew up around the great cathedrals that were centers for ecclesiastical education. As the universities began to train young men for occupations other than the ecclesiastical, such as law, some students probably were inclined to abandon "monkish" robes for more worldly garb.

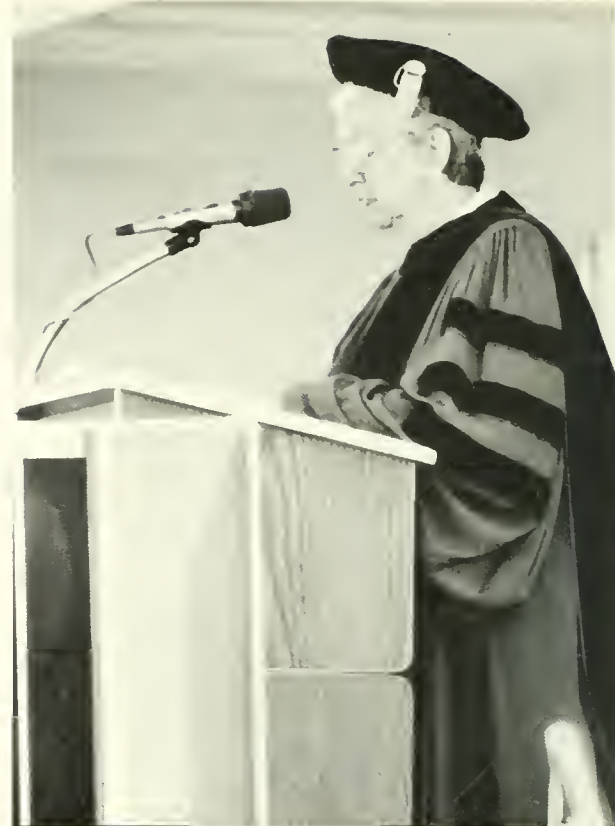

Possibly in reaction to this, a 1321 statute at the University of Coimbra required all "Doctors, Licentiates, and Bachelors" to wear gowns. Other statutes during the second half of the 14th century forbid "excess in apparel" at English universities, instead directing the wearing of long gowns. This distinctive dress set students apart from other citizens in university towns, fueling the historic conflict between "town and gown."

Academic dress design varies among European institutions. But the United States has a standardized code of academic dress authorized by the American Council on Education. Because of this code we can look at today's commencements and know the wearer's study discipline, degree level and even what institution he or she is graduating from.

According to the Academic Costume Code, a bachelor's gown is worn closed with long, pointed sleeves. A master's gown is worn open, with long sleeves cut to hang away from the forearm in an oblong shape. Doctor's gowns can be worn open or closed and may be trimmed with wide velvet panels running down the gown's front and velvet bars on the sleeves. The velvet is black or the color of the wearer's study discipline. Hoods, if used, are lined in the college or university's color and bordered with a color that indicates the wearer's degree.

According to the Academic Costume Code, here are the colors associated with degrees or study disciplines.

Agriculture	Maize	Medicine	Green
Arts, Letters, Humanities	White	Music	Pink

In keeping with St. Joseph's objective of educating the whole person in an environment which permits the student to grow through self-direction and responsibility, the administration and faculty have granted the students a high degree of control over extra-curricular affairs. Moreover, the College Governance structure, especially through elected student representation on the College-Advisory Council, encourages students to participate in college policy-making.

The College has a long history of faculty-student cooperation. It is hoped that through the sharing of mutual concerns, ideas, and problem-solving, the community that is St. Joseph's will provide students with emotional maturity so that they will reach their full potential as persons and give leadership in their immediate society and the larger communities of the nation and the world.

The student who is admitted to St. Joseph's College accepts the requirements and regulations stated in the College Catalogue and the Student Handbook, including the statement on Rights and Responsibilities, the Student Code of Conduct, and the Student Grievance Procedures. The College reserves the right to initiate due process for the dismissal of a student who fails to meet these standards.
